What is domestic abuse?

Domestic abuse is the misuse of power and control, usually but not always by one person over another, within an intimate or family relationship. It can take many forms including psychological, physical, sexual, financial and emotional abuse, and coercive and controlling behaviour. Children who live with domestic abuse will also be affected by that experience, although their response will vary.

What is the Therapeutic Marketplace?

Waltham Forest Council has commissioned Solace to provide access to a range of therapeutic support services via one referral route. It is made up of a number of approved providers and aims to help those affected by domestic abuse, sexual abuse, and harmful practices to recover and continue with their lives. Services include counselling, group work, and a range of creative therapies. In cases where these services are not suitable, we aim to support survivors to find an alternative.

The Marketplace provides services for the full diversity of need across the borough including age, gender, ethnicity, faith, sexual orientation, and relationship status.

Waltham Forest

Thank you all so much for helping me to reclaim my space to quiet my mind.

For more information about support and/or to make a referral, please contact Solace:
